

PASSAIC VALLEY WATER COMMISSION MEETING OF

OCTOBER 31, 2007

(CLOSED SESSION)

C O M M I S S I O N E R S P R E S E N T :

RIGO SANCHEZ, President

ALAN C. LEVINE, Vice-President

SIMON GRUBIN, Treasurer

THOMAS P. DeVITA, Secretary

MARIA MAGDA O'KEEFE

GLORIA KLODZIEJ

IDIDA RODRIGUEZ (Absent)

A L S O P R E S E N T :

JOSEPH A. BELLA, Executive Director

GEORGE T. HANLEY, Counsel

JAMES G. DUPREY, Director of Engineering

JAMES J. GALLAGHER, Personnel Director

YITZ WEISS, Controller

LOUIS AMODIO, Administrative Secretary

(CONFIDENTIAL)

MR. HANLEY: And then I just want to make a -- of course the whole reservoir project is still -- we've had discussion, continuing discussions with the City of Newark representatives attempting to get them to make a -- what do you call it, Joe, musciata. We haven't gotten real results, but we haven't given up either.

COMMISSIONER DEVITA: Anything on the discrimination?

MR. HANLEY: Nothing since I last reported. I'll check again. Nothing since last month.

Reservoirs, just to let you know, nothing dramatic. Joe's been talking with the people in the DEP. He'll update you on that.

the Rochester, I know from our survey, has same problem we do and I met with them. They have a department that's owned by the city. I met with the Executive Director and his Chief Engineer, and they're going to try to create a liaison with me

stuff.

with the Mayor's office, political kind of

But they were very receptive. They have about a
\$25 million problem. That's big enough. So,

of

Louise Lauder that may be helpful to us at some point. We'll get a critical mass together and hopefully they'll fire me from that job eventually. I think that's about all I have.

[illegible]

[REDACTED]

[REDACTED]

[REDACTED]

MR. BELLA: It depends on the Commission.
What do you want me to do? You want me to go
forward?

Reservoir covers. We met with the State,
gave them an overview of what the situation is

of

our reservoirs. And this kind of came out of a
fall back we had with the person that would be
sort of in charge down there. Said, look, we'll
come down and talk to you, see what you're
thinking. Their tact was what they wanted us to
do is get -- what they want us to do would be

the

most highest cost option. And they seem to be
intransigent when I talked to them on the phone
about that. And that was basically to build big
concrete tanks and nothing else. So, at any

rate,

we went down and gave a whole presentation what
the impact was.

COMMISSIONER DeVITA: This is the State?

MR. BELLA: The State. And some of the
options that we thought were viable and they
to be interested in doing that.

seem

COMMISSIONER GRUBIN: This is the DEP?

MR. BELLA: DEP, yes, not interested in

doing it, but they became much more receptive to
what we were talking about. And that could be

substantial, substantial savings to us, millions
and millions of dollars.

tank
PRESIDENT SANCHEZ: Joe, how big of a
are you going to build?

MR. BELLA: It's huge, these tanks.

COMMISSIONER GRUBIN: Like a super belly
--

on
MR. BELLA: I'll give you a presentation
it at the next meeting. I'll give you the sizes
and how they fit. We have a whole presentation
to
give to the State.

using
COMMISSIONER LEVINE: How much are we
in the gasoline?

COMMISSIONER GRUBIN: This is for the --

How
COMMISSIONER LEVINE: Fuel management.
much do we use?

PRESIDENT SANCHEZ: Well, excuse me --

switch
COMMISSIONER GRUBIN: Do you want to

to something else. We're on reservoirs.

PRESIDENT SANCHEZ: Joe, go ahead.

very
MR. BELLA: At any rate, the State was

and receptive. They're going to send us a letter
Trenton a letter. They were already going to do
that before we got there basically trying to fix
a
compliance,
to
schedule of how we're going to come to
the EPA. So this is where everything is going

of
letter
on

begin and the negotiations and all the nuances
everything we're going to be doing is going to
start to come into play. Once we get that
next meeting, I'll give you some further update
it and I think this will get the ball rolling as
far as all the other issues. Okay. I just want
to give you an update. I thought we had a very
successful --

What
results
issue
years.
in

PRESIDENT SANCHEZ: Before you go on.
I want to do, I want to form two committees to
work with you because we're going to need
on the way, because I think this the biggest
that is facing the Commission in the coming
First of all, because somehow we're going to
comply. It's a Federal law. We have to comply
2012.

we're
put

MR. BELLA: 2011.
PRESIDENT SANCHEZ: I don't know what
going to need, but I think we should at least
two Commissioners following you on this and make

sure they stay on top of it. I think,
Commissioner Kolodziej, if you can help us with
that and Commissioner Rodriguez.

Will you please inform her?

MR. AMODIO: I will.

PRESIDENT SANCHEZ: I would like to have them two work with you and come out with a strategy, what we need, if we need any

if we need anything in place that's going to
us. The cost, how we're going to get this done.

We

got to do something about it and let's start now
and hopefully we'll move into the right

Okay.

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as $\epsilon \rightarrow 0$. It is shown that the solutions of the system (1) converge to the solutions of the system (2) in the sense of the weak convergence in the space $L^2(\Omega; \mathbb{R}^n)$. The second part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as $\epsilon \rightarrow 0$. It is shown that the solutions of the system (1) converge to the solutions of the system (2) in the sense of the weak convergence in the space $L^2(\Omega; \mathbb{R}^n)$.
