

PASSAIC VALLEY WATER COMMISSION

NOTICE OF CONTRACT AWARD

EMERGENCY SITUATION

Passaic Valley Water Commission, a Municipal Corporation of the State of New Jersey, located at 1525 Main Av., Clifton, N.J., has awarded a contract without competitive bidding as an "Emergency Service" pursuant to N.J.S.A. 40A:11-6.

The resolution and certification authorizing it, on the recommendation of the Executive Director and the Director of Engineering, and on advisement of General Counsel, are recorded in the Minutes and are available for public inspection in the office of the Administrative Secretary, Passaic Valley Water Commission, 1525 Main Ave., Clifton, N.J.

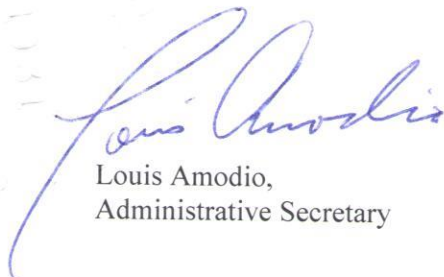

Awarded to: U.S. Tank Painting, Inc.
900 Rike Drive
Millstone TWP, N.J. 08535

Services: Emergency condition occurred. PVWC's Harrison Avenue elevated water storage tank in Lodi, New Jersey (the "Harrison Avenue Tank") began experiencing leaks at a rate which required a significant number of emergency interim periodic welding repairs until the existing tank could be taken out of service and drained. Failure to aggressively repair these emergency leaks as soon as they occurred would have compromised the structural integrity of the existing tank (which was located in a residential area) which, in turn, could have led to a tank failure and potentially catastrophic release of stored water.

Date: 6/21/17

Fee: \$48,800.00

This is to certify the within is a true and correct Action taken by the Board of Passaic Valley Water Commission at its regular public meeting held on Wednesday, 6/21/17.

Louis Amodio,
Administrative Secretary
