Executive Director's Report

For the Month

Of

August, 2016

Joseph A. Bella
September 14, 2016
Board Meeting

1. Finance and Accounting

2. Customer Service/Distribution Operations

3. Engineering

4. Information Technology Services

5. Plant Operations

6. Purchasing

~ Attachments: Call & work order charts, aged arrears, Safe Drinking Water Act compliance, Chemical Cost & Laboratory Data summaries

1. FINANCE AND ACCOUNTING OPERATIONS

The total flow from the Plant decreased from 3,469 million gallons in August, 2015, (includes 141 million gallons sent to United Water) to 2,867 million gallons in August, 2016, by 602 million gallons. This equals a decrease of 19.4 million gallons per day. At the wholesale rate of $2,389.12 per million gallons, this is equivalent to decrease of $1,438,250 in revenue for the month.

The total flow from the Plant for the prior reporting period of July, 2016, was 3,036 million gallons. The total flow for August, 2016, was 2,867 with a decrease of 169 million gallons; 5.5 million gallons per day which is equivalent to a decrease of $403,761 in revenue for the month. August was a low-demand month. While rainfall was lower than average, what rain fell was weekly thereby decreasing demand.

2. CUSTOMER SERVICE/DISTRIBUTION OPERATIONS

- Total Customer Service calls for July, 2016, were 10,085; total call-rate abandonment was eight percent for a total of 643 abandoned calls. This increase was partly due to changeover in the office layout in the Customer Service area. The abandonment rate will go down in August.
- Total Customer Service calls for August, 2016, were 10,953; the call-rate abandonment was six percent for a total of 578 abandoned calls.
- Year-to-date Customer Service calls for 2016 were 78,421; the total call-rate abandonment year-to-date calls for 2016 was 4,049.
- For 2015, total year-to-date Customer Service calls were 121,932; the total call-rate abandonment year-to-date for 2015 was five percent (5,186 calls).

Customer Information System

- Completed.

Distribution Operations

- Work orders for the month of July, 2016, were 1,244; and, 58 radio reads were installed on large, monthly-commercial accounts.
- Work orders for the month of August, 2016, were 1,791; and, 88 radio reads were installed on large, monthly-commercial accounts.
- Year-to-date work orders for 2016 were 10,399.
- Year-to-date work orders for 2015 were 14,110.
- There were 10 main breaks in July, 2016, and one main break in July, 2015.
- There were five main breaks in August, 2016, and one main break in August, 2015.
- Year-to-date total main breaks for 2016 were 97.
- Year-to-date total main breaks for 2015 were 211.
- Fifty-six Employees worked 1,081 overtime hours in July, 2016.
- Fifty-six Employees also worked 1,259 overtime hours in August, 2016.
- Year-to-date overtime hours were 9,126 in 2016, and 12,119 overtime hours in 2015.

3. ENGINEERING DEPARTMENT

Current Projects

- Passaic Valley Water Commission's (PVWC's) in-house design of the replacement Harrison Avenue Elevated Water Storage Tank in Lodi is continuing.

- New Jersey Department of Transportation (NJDOT) is proceeding with the design and construction of their project entitled "Route 7 Mill Street to Park Avenue Located in the Townships of Belleville and Nutley, Essex County". The Project may require the construction of new, and/or protection, and/or relocation, and/or adjustment, of facilities that are owned and operated by PVWC. PVWC's Engineering Department will continue coordinating with NJDOT in this regard.

- NJDOT's project for their Route 46/Route 3 highway improvements is continuing. The NJDOT's proposed alignments and elevations of their proposed road and other related facilities that impact PVWC's transmission main and other PVWC water mains will continue to be reviewed by PVWC's Engineering Department as the project progresses.

- The portion of the cleaning and lining contract in Clifton is completed. Remaining portions of cleaning and lining in North Arlington and Paterson included under this contract are nearing completion and the project will be closed out shortly thereafter.

- Furnishing and installation of new equipment and other contract work under the remote sites Supervisory Control and Data Acquisition (SCADA) project is continuing. The SCADA project is currently anticipated to be completed in late summer or early fall of this year. At this time, the project is projected to be completed within budget.

- The conceptual approach for improvements to PVWC's residuals storage and handling facilities will be further refined during upcoming in-house meetings with designated PVWC Staff. Following consensus on the conceptual approach, an RFP to solicit for professional services to assist PVWC in the design and construction phases of the project will be prepared and issued.

- Rehabilitation of PVWC's Hydroelectric Generators:

  Project 15-P-41 for professional services to assist PVWC with the design (including feasibility study and design, preparation of bid documents and services during construction) for rehabilitation of PVWC's hydroelectric generators and related facilities is continuing. The consultant has submitted the feasibility study in draft form to PVWC Staff for review.

  As previously indicated, this rehabilitation project will consist of two separate bid contracts, the first to rehabilitate the penstock and penstock bypass valves and isolation stop-logs, and the second to sequentially rehabilitate the hydroelectric generators.

Following award of the public bid contracts resulting from the outcome of the feasibility analysis, the rehabilitation phases of the project are anticipated to take place over at least a two-year period.

- Horizontal Split-Case Pump Rehabilitation Contract: Bid documents are needed to replace the existing valves that will be needed to individually isolate those pumps for the future pump rehabilitation project. Sequential rehabilitation of the pumps will take place under a separate publically bid contract following completion of the valve rehabilitation contract.

- The National Park Service (NPS) has requested that PVWC convey its ownership of PVWC property contained within the Great Falls National Historical Park to them; and, they have prepared various draft documents with proposed reserved rights, terms and conditions for review by PVWC. A draft agreement, which is currently being prepared through PVWC's Law Department, will be submitted to the Commission in draft form for discussion and consideration.

- Grant/Loan/New Jersey Environmental Infrastructure Trust (NJEIT) Funding: PVWC's Engineering Department continues coordination with New Jersey Environmental Infrastructure Trust regarding upcoming projects and future, loan-forgiveness opportunities.

- Departmental Support: Assisted other PVWC Departments (Purification, Distribution, Maintenance and Legal) on Engineering-related matters, such as wholesale billing, allocation-related issues, interconnecting testing, regulatory interfacing related to the dams, the DPCC program, and other regulatory-related issues.

Long-Term Ongoing Projects

- Public Outreach and Participation for the New Street Project

  The Project for Professional services for Public Outreach and Participation for the New Street Project is continuing.

- Standby Power Generation System at the Plant

  On August 9, 2016 seven bids were received and opened for Contract 15-B-25 "Water Storage Improvements Phase 1--Standby Emergency Generators". These bids are currently being evaluated and a resolution concerning award is anticipated to be submitted to the Commission for consideration at the upcoming September Commission Meeting.

- Geographical Information Systems (GIS)

  The refined customer account database continues being checked by PVWC's Engineering and Distribution Departments to verify reconciliation of all account discrepancies. Previously awarded Project 16-P-47 for professional services for GIS to CIS integration will enable PVWC to capture customer information and various types of service calls directly from the CIS database to GIS.

Project 16-P-47 "Professional Services for GIS to CIS Integration" is continuing.

- PVWC's consultant for the fixed-base antenna and meter replacement project has submitted a draft copy of the feasibility study to PVWC for review. Regardless of which alternative for meter replacement PVWC ultimately decides, PVWC will periodically bid for procurement of replacement parts to repair/replace PVWC's existing malfunctioning/failing meters and related equipment in PVWC's Distribution system. The contracts for procurement of replacement parts for PVWC's existing water meters and for replacement water meters have been awarded and continue to be available for PVWC to procure necessary repair parts and replacement water meters and related appurtenances.

- As part of PVWC's long-term initiative to increase replacement of existing failing piping, while continuing the current cleaning and lining program, several pipe replacement and cleaning and lining projects have been identified and are currently in the planning and design phase. Following completion of design, it is anticipated each of these projects will be issued in sequence with minimized overlapping such that timing of each issuance for public bidding will be guided by the extent of difficulties (such as unforeseen subsurface conditions) encountered as each successive pipe replacement contract unfolds. These contracts will include pipe replacement in Lodi (to be advertised the end of January, 2017), cleaning and lining in Passaic and Clifton (to be advertised the end of February, 2017) and large-valve replacement project (to be advertised the end of June, 2017).

- NJDOT:

  PVWC's Staff continues to coordinate with officials from the New Jersey Department of Transportation regarding ongoing projects and impact on PVWC facilities.

4. INFORMATION TECHNOLOGY SERVICES

Yitzchak Weiss will report.

5. PLANT OPERATIONS

MAINTENANCE AND CONSTRUCTION

Executive Summary

- Continue working on the Purification Office renovation

Maintenance

- Rebuild four-inch and eight-inch GA regulators in the Totowa Pit.
- Rebuild six-inch Clayton regulator at Katz Avenue Pit.
- Rebuild 12-inch RollSeal regulator in Beverly Road Pit #1
- Install two-inch Watts regulator in Katz Avenue Pit.

- Test Katz Avenue Pit regulators.
- Change SHELCO filter on all the ASCO Control Panels for the filter valves.
- Clear bush and debris from Kuller Road Pit.

Little Falls Water Treatment Plant (LFWTP) Maintenance

- Contactors
- Clarifier – Wash incline plate settlers on Clarifier No. 3. Unclog sand-sample lines for Clarifiers No. 1 and No. 4. Replace failed coupling on the Floc Mixer for Clarifier No. 2. Inspect grease coupling on Clarifier No. 3 Floc Mixer.
- Dewatering Station
- Dry Polymer System
- Equalization Basin
- Filters
- LOX Facility
- Microsand Transfer Tank
- Ozone System PACL System
- Residual Treatment Facility
- Sand Recirculation Pumps
- Settling Tubes Building – Wash, inspect Basins No. 3 and No. 4. Replace cable and bushings in Basins No. 3 and No. 4. Wash, inspect Basins No. 1 and No. 2. Replace bushings in Basins No. 1 and No. 2.
- Travelling Screens
- Trash Rake
- Wash Water Pumps/Transfer
- Wet Well Pumps

Transmission

- Airport Pump Station
- Industrial Pump
- Morris County Pump Station
- Totowa Pump Station
- Transfer Pumps
- Verona Pump Station
- Wanaque Pump Station
- Wanaque South Pump Station

Chemical Feed System

- Replaced the pulsation dampener on the discharge line of Ferric Pump No. 3.
- Replaced pressure gauges on the discharge line of Ferric Pumps No. 3 and No. 4.
- Installed a Corrosion Control Transfer Pump on the fill line in the Main Pump Station.
- Replaced leaking fitting on the pressure relief line for Caustic Pump No. 2.

- Repaired the top bleeder check valve on Sodium Hypochlorite Pump No. 2 at the Burhans Avenue Pump Station.
- Replaced pressure gauge on Corrosion Control Pump No. 1 at Great Notch Reservoir.
- Repaired a leak on the sodium hypochlorite discharge No. 2 to the bar screen at Levine Reservoir.
- Replaced the suction check valve on Sodium Hypochlorite Pump No. 1 to Booster Pumps No. 3 and No. 4 at Botany Pump Station.
- Installed a new vent line for the Sodium Hypochlorite Tanks at Burhans Avenue Pump Station.
- Replaced the suction check valve on Sodium Hypochlorite Pump No. 2 at Levine Reservoir.
- Transported 6,300 gallons of corrosion control for the month to Great Notch Reservoir, Botany and Burhans Avenue Pump Stations.

Distribution/Remote Facilities

- Point View
- Nosenzo Pond
- Burhan's Avenue Pump Station
- High Crest Public Water System- Rebuild Pump No. 1.
- Bloomingdale/Riverdale/Mathews Avenue Pump Station - Replace ASCO valve on discharge valve for Bloomingdale Pump No. 2.
- Great Notch Facilities
- Dixon Ave Garret Heights Pump Station
- Lodi
- New Street Pump Station
- Levine Reservoir
- Lincoln Park Pump Station
- Botany Pump Station – Paint pump station. Install motor on Pump No. 2.
- Pressure Regulators/Air Release Valve
- Sunset Pit
- Prospect Park Pump Station
- Hepburn Road
- Jackson Avenue Pump Station – Run pump No. 5 when possible to fill Point View Reservoir.
- East Side Pump Station
- Wanaque South
- Great Falls
- Redwood Avenue Pump Station

WATER QUALITY AND TREATMENT OPERATIONS

Little Falls Water Treatment Plant (LFWTP) performance:

- All LFWTP treatment regulatory requirements were met in August, 2016.
- All LFWTP chemical disinfection requirements were met in August, 2016.

- Potassium permanganate was not used for source water treatment in August.
- Primary disinfection with ozone:
    1. The required Inactivation Ratios (IR = 1.0) for virus and Giardia disinfection with ozone were met all of the time for all active contactors during August.
- Filtration:
    1. There were no regulatory violations in August for either individual filter effluent or combined filter effluent.
    2. The maximum CFE turbidity in August was 0.128ntu.
- Residual disinfection with chlorine:
    1. There were no regulatory violations for the chlorine residual concentrations.
    2. The target residual in August was 2.0 – 2.2mg/L (1.6 to 2.3 mg/L). The range during August for CFE chlorine residual was 0.89 to 3.80 mg/L. The low and high range was due to the Plant shutdowns.

- Finished water (LFWTP) pH:
    1. Finished water pH was usually within the target range of 7.8 to 8.2, and was always between 7.9 and 8.4.

Personnel

- Jeff Baig passed the T-3 Water Treatment License exam and officially became a T-3 Water Treatment Operator.
- Zackary Miranda passed the T-2 Water Treatment License exam and officially became a T-2 Water Treatment Operator.
- The above Employees will receive a congratulatory memorandum and New Jersey American Water Work Association pin.
- Recommendation from the Executive Director for the Board's consideration for the Commission Meeting in October regarding the following Personnel actions:
    1. Promotion: One Senior Accountant
    2. Promotion: Two Keyboarding Clerk 2 (Accounting and Billing)
    3. Promotion: One Senior Technician
    4. Promotion: One Customer Service Manager
    5. Promotion: Ongoing promotions in the Distribution Department: Laborer to Water "Repairer I" and "Water Repairer I to Water Repairer 2"
    6. Promotion: One Senior Mechanic
    7. Promotion: Assistant Purchasing Agent

LFWTP Treatment Processes:

- A-2 filter still out of service (influent valve).
- Generators are using 60 percent to 80 percent more energy than expected. This came on gradually over the past few months. Working with Fin-Tech to resolve the problem.

Remote Chemical Feed Stations:

- All remote station chlorine disinfection requirements were met in August, 2016.

Distribution Systems:

- On June 14, 2016, started feeding the new Non- Zinc Orthophosphate solution to Great Notch systems.
- On June 28, 2016, started feeding the new Non-Zinc Orthophosphate solution to Botany systems.

Consultant Projects:

A. Treatment Process Optimization (Black & Veatch):
B. Residuals Process Optimization (Environmental Engineering & Technology, Inc.):

C. Ozone System Optimization (Process Applications Inc.)

- The primary reason for overtime was filling in shifts as needed (for vacation, sick days, etc.). Summaries of overtime are shown below for all instances greater than one hour:

Week Starting Date	Standby OT Hours	Emergency OT Hours
07/31/16	13.0	61.50
8/07/16	12.0	45.25
8/14/16	13.0	104.0
8/21/16	28.0	75.0
8/28/16	36.0	75.0
Total hours:	102.0	360.75

Cost Factors:

2016 Monthly Data:					
Month	**Volume Produced (MG)**	**Water Treatment Cost**	**Residuals Treatment & Disposal Cost**	**Total Monthly Cost***	**Total Cost per MG**
January'16	1155	$198,034	$152,039	$363,0281	$314.33
February '16	1192	$169,450	$122,017	$304,837	$255.63
March '16	1386	$213,113	$155,970	$384,686	$277.49
April '16	1366	$253,856	$44,031	$314,040	$229.93

May '16	1398	$277,966	$102,270	$395,491	$282.88
June '16	1722	$394,147	$118,631	$536,747	$311.70
July '16	2032	$430,104	$214,568	$678,568	$334.14
Aug '16	1792	$374,514	$123,066	$532,783	$297.28
Sept '16					
Oct '16					
Nov '16					
Dec '16					

* Total monthly costs also include the chemical-treatment costs for the three reservoirs and Botany Pump Station.
*August, 2016, cost totals include preliminary estimates for the costs Levine Reservoir, New St. Reservoir, Great Notch Reservoir and Botany Pump Station.

Water Treatment Plant Shutdowns:

- August 6, 2016: Power Outage – Plant shutdown
- August 13, 2016: due to Generator 2 shutdown on high current (production monitor was left in auto zero mode).

SUMMARY OF OUTSTANDING/COMPLIANCE ISSUES BY SYSTEM:

- Main System:
  - Ongoing exceedance of the New Jersey recommended upper limit (RUL) for sodium.
  - Administrative Consent Order with New Jersey Department of Environmental Protection (NJDEP) to address the uncovered drinking water reservoir requirements of the Long Term 2 Enhanced Surface Water Treatment Rule (LT2ESWTR).
  - Phased implementation of Lead/Copper Rule (LCR) Corrosion Control Treatment (CCT), in our main PVWC system until the reservoirs are addressed and CCT can be implemented at the LFWTP to treat the entire Distribution System.
- Post Brook:
  - On-going exceedance of the State Manganese RUL.
- Wallington:
  - The Executive Director is no longer the licensed operator on record for the Wallington water system. Wallington water system continues to be a PVWC Laboratory client for collection and analytical services.

<u>General Regulatory Compliance Update:</u>
<u>Revised Total Coliform Rule (RTCR)</u>

- All PVWC systems are in compliance with the RTCR for the month of August, 2016.

- One out of 225 coliform samples collected in the PVWC main system in August was total coliform positive, all were E. coli absent.
- Two out of 50 coliform samples collected in the Lodi system in August were total coliform positive, all were E. coli absent.
- One out of 43 coliform samples collected in the North Arlington system in August were total coliform positive, all were E. coli absent.
- All samples collected in August in the High Crest and Post Brook water systems were absent for total coliform and absent for E. coli.

Lead and Copper Rule

- Lead and copper tap sample monitoring in the PVWC main system will begin later in September for the July 1 - December 31, 2016, monitoring period. The 90th percentile lead and copper levels are currently below their respective actions levels.
- The High Crest, Lodi, North Arlington and Post Brook water systems are all in compliance with both the lead and copper action levels. These systems are on a triennial monitoring schedule and will be sampled next during June – September, 2018.

Long Term 2 Enhanced Surface Water Treatment Rule (LT2ESWTR)

- August source water monitoring for Cryptosporidium, E. coli bacteria and turbidity, was completed. Bi-monthly monitoring will continue through April, 2017.
- Results of this monitoring will be used to determine if additional treatment for removal/inactivation of Cryptosporidium is required at the Little Falls Water Treatment Plant.

Stage 2 Disinfection Byproduct Rule (DBPR)

- Required third quarter monitoring for all PVWC systems was completed during the first week of August. Required annual monitoring was completed in August for the Post Brook water system. All systems are in compliance with Stage-2 DBPR total trihalomethane and haloacetic acid levels for the third quarter of 2016. The next sampling event (Qtr-4 2016) is scheduled to be completed in November, 2016.

PURCHASING

Contracts

Contract # 15-B-25 - "Water Storage Improvements Phase 1 – Standby Emergency Generators, Totowa , New Jersey – bids received August 9, 2016 – Protest Hearing is scheduled for September 20, 2016

Contract # 16-B-07 - "Valves, Tapping Gate Valves & Tapping Sleeves" – recommendation to award to Water Works Supply Company – two years - $459,216.14

Contract # 16-B-22 - "Liquid Residuals Hauling Services" – bids to be received September 20, 2016

Contract # 16-B-29 - "Quick-Disconnect Type Adapters for Fire Hydrants" – recommendation to award to Water Works Supply Company – two years - $529,874.74

State Contract Purchases

Dell Marketing, L.P. – M0483-16-r-89967 – two OptiPlex 7440 AIO desktops – total $2,415.08

ADDENDUM

Laboratory Data Summary

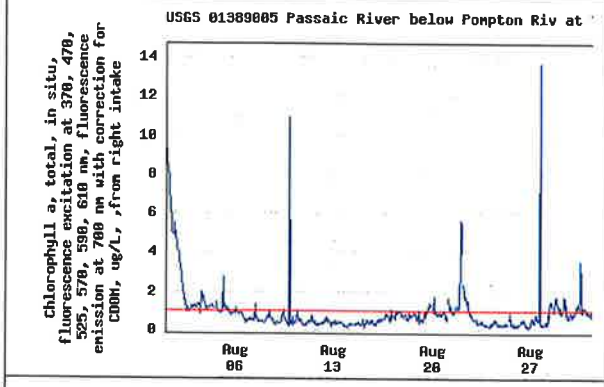
1. **Customer-Requested Lead Testing**
   The 10 customer-requested lead samples submitted in August were the fewest since January, but more than any one month in 2015 before the current public awareness of lead in water took hold.

   Of the 610 lead test results completed so far on customer inquiry samples submitted in 2016:
   - 10 samples (about two percent) were found above the EPA 'action level' of 15 ppb
   - 90 of the samples have been measured at less than 3.5 ppb lead
   - 306 of the samples (about 50 percent) were found to be non-detect for lead

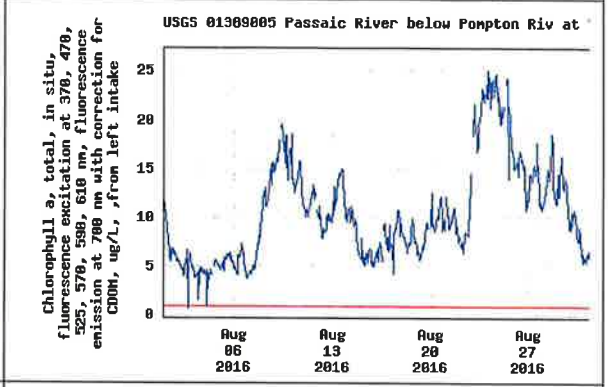
2. **Watershed Algae and Cyanobacteria**
   Algae levels in the Pompton and Passaic Rivers remained low this month, as observed at the USGS monitoring station at the Two Bridges confluence.

   Our monitoring of Little Falls treated water, and NJDWSC water delivered to our plant, was non-detect for algal toxins again in August. We will continue monitoring through the warm weather. Our monitoring includes:
   - Anatoxin-a
   - Cylindrospermopsin
   - Microcystin (6 congeners)
   - Nodularin

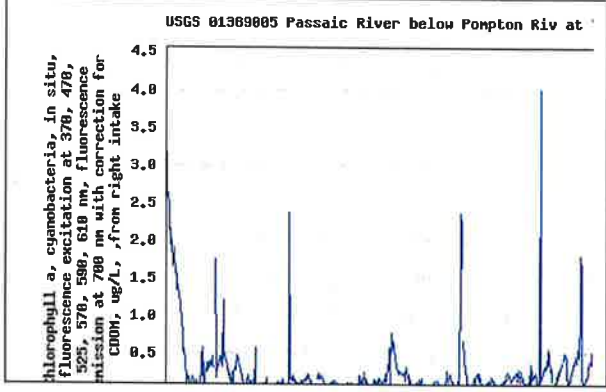
Total Chlorophyll-a (Passaic R. side)



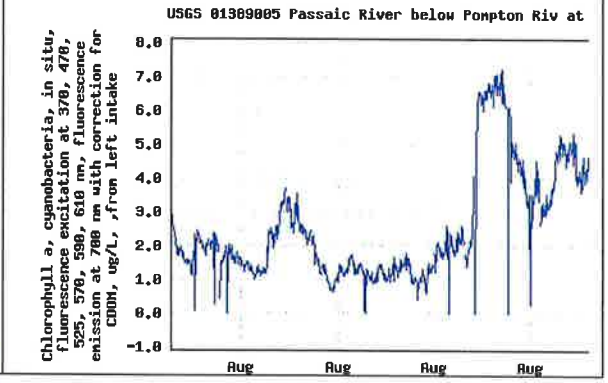
Total Chlorophyll-a (Pompton R. side)



Cyano Chlorophyll-a (Passaic R. side)



Cyano Chlorophyll-a (Pompton R. side)



3. **Perfluorosurfactants**
   In response to the new USEPA advisory regarding perfluorooctosulfonic acid (PFOS) and perfluorooctanoic acid (PFOA), we are monitoring LFWTP effluent as well as NJDWSC water at the Little Falls Plant. Although well below the level that would prompt a public advisory (70 parts per trillion combined PFOA and PFOS), trace levels of these materials can be observed in both source waters. We will continue to monitor for these contaminants regularly.

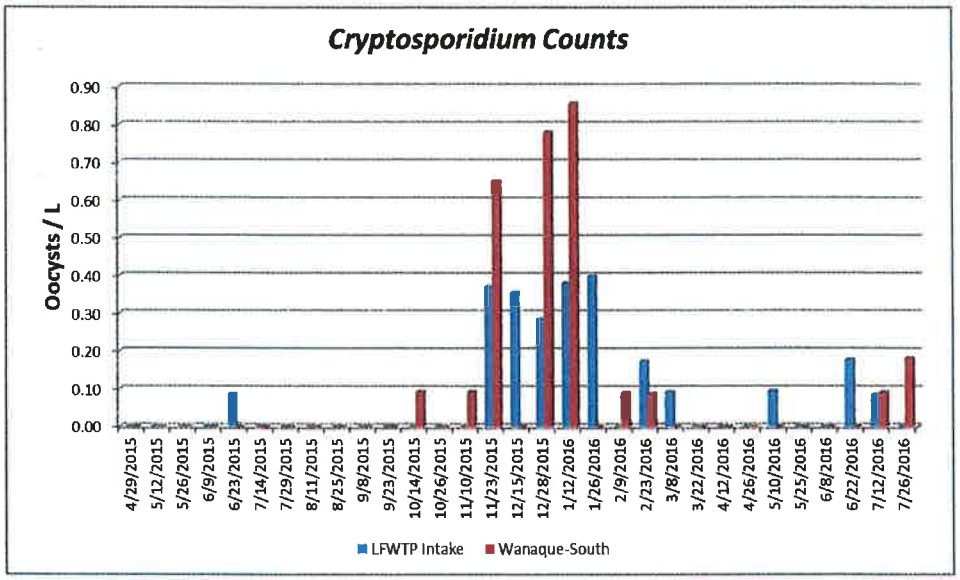
4. **Perchlorate**
   Our routine annual check for possible perchlorate contamination showed non-detectable levels (< 1ppb) in our LFWTP water as well as NJDWSC water at Little Falls. Perchlorate was also non-detectable in the Passaic River and the Pompton River upstream of our intake.

5. **Long-Term-2 Enhanced Surface Water Treatment Rule (LT2ESWTR)**
   We have results now from the first 31 of the required 48 bi-monthly samples in this 24-month Cryptosporidium testing program. Our regulatory compliance average at this point would put us into the "Bin 2" classification. If this rate continues throughout the remaining LT2 testing period (i.e. through April, 2017), PVWC may be required by regulation to implement additional inactivation and/or removal capability at the Little Falls Plant.

During the warmer months of 2015, Cryptosporidium was virtually undetectable at our intake and upstream at the Wanaque-South sampling point. During the colder winter months several of our Head gate samples showed detectable levels of Cryptosporidium oocysts, and these appeared to have subsided again with the warmer weather earlier in 2016. However, we have seen slightly more Crypto this summer than we saw last year at this time and this has kept our LT2 average slightly elevated. Our current average is 0.084 oocysts/L, and the upper limit to avoid Bin 2 classification is 0.075 oocysts/L.

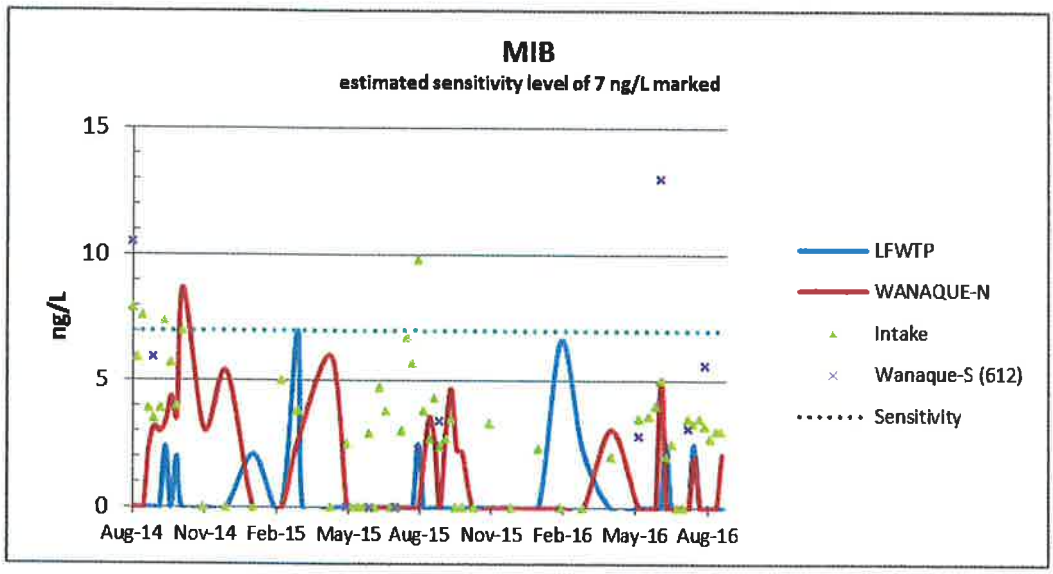
For reference, the current average at our Pompton River alternative intake is slightly higher, at 0.091 oocysts/L and shows the same seasonal pattern as our Passaic River intake results.

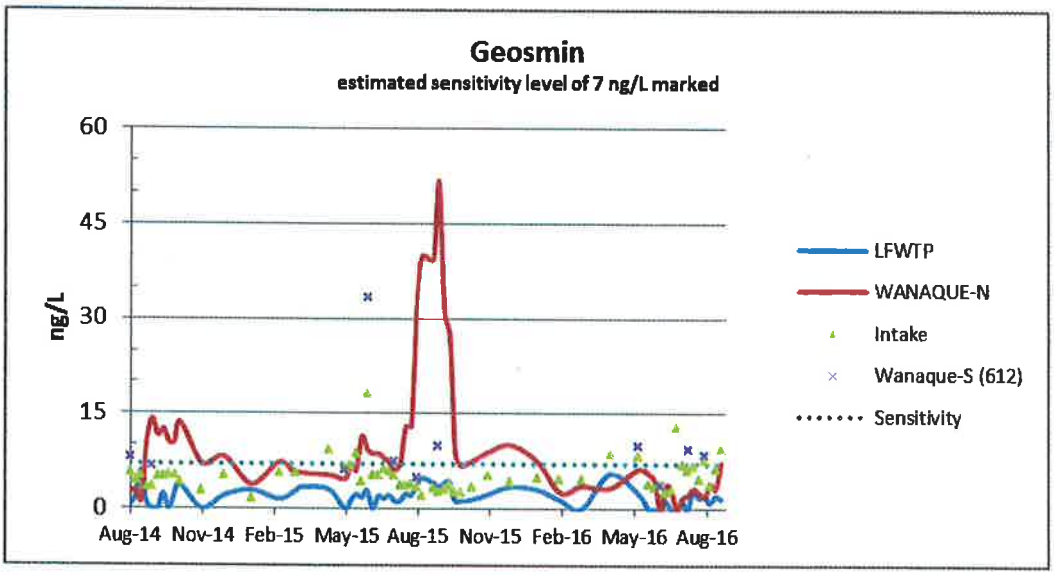
Sampling will continue into April, 2017. Giardia (not counted towards compliance) has also been observed in our source water at levels slightly above the method detection limit of 0.095 cysts/L.



6. **MIB/Geosmin Trends – August 2014 to Present**
Weekly sampling May – September; Monthly sampling October – April

MIB and Geosmin levels remained fairly moderate in August as shown below. So far we have not seen a repeat of last summer's significant Geosmin event. Both compounds remained below our estimated customer perception level of 7 ng/L in our finished water and in North Jersey District Water Supply Commission (NJDWSC) water, during the month. We usually see them increase somewhat, particularly in the NJDWSC supply, in the summer months, but this year these taste and odor compounds have been under good control.





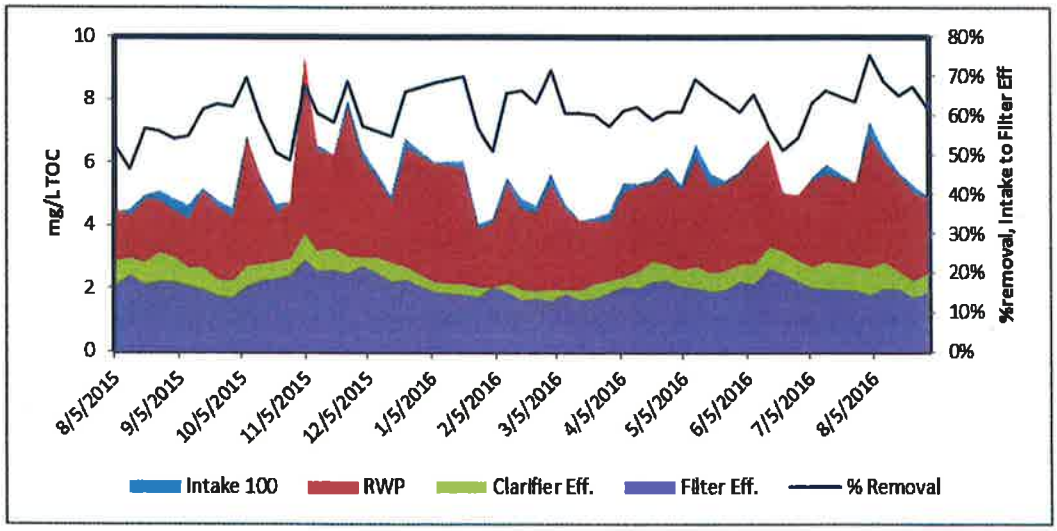
7. Caldwell Trucking

The results from the most recent Caldwell Trucking report (their July sampling) are shown below with comparison to the report immediately previous. As confirmation of the GWTT results reported to us, we perform quarterly sampling at our location STRMS-104B, on the Passaic River at the Deepavaal Brook confluence, where we usually detect diminished quantities of some of the analytes reported by GWTT. The most recent results from that sampling (June 9) are also shown in the table below. As usual, none of the detected compounds were observable in our Little Falls plant intake at our most recent sampling there (August 3).

	GWTT (Brook downstream of tributary)		Quarterly PVWC Sampling, Passaic R. at Deepavaal Brook	NJ MCL for Drinking Water
	June 21	*July 12*	*June 9*	
chloroform	<0.1 µg/L	0.6 µg/L	--	*(included in THM4)*
cis-1,2-dichloroethene	15	3.0	8	70 µg/L
1,1-dichloroethane	1.1	0.2	<1	50
1,1-dichloroethene	0.6	<0.2	<1	2
tetrachloroethene	2.0	0.6	1	1
1,1,1-trichloroethane	3.1	0.9	2	30
trichloroethene	**20**	**4.5**	**10**	1
vinyl chloride	0.4	<0.2	<1	2

8. TOC Removal – Intake/RWP, Clarifier Effluent, and Filter Effluent – August 2015 to date: LFWTP organics removal ratios were excellent in August, remaining well above regulatory requirements (typically 35-45 percent) as shown in the trends below.

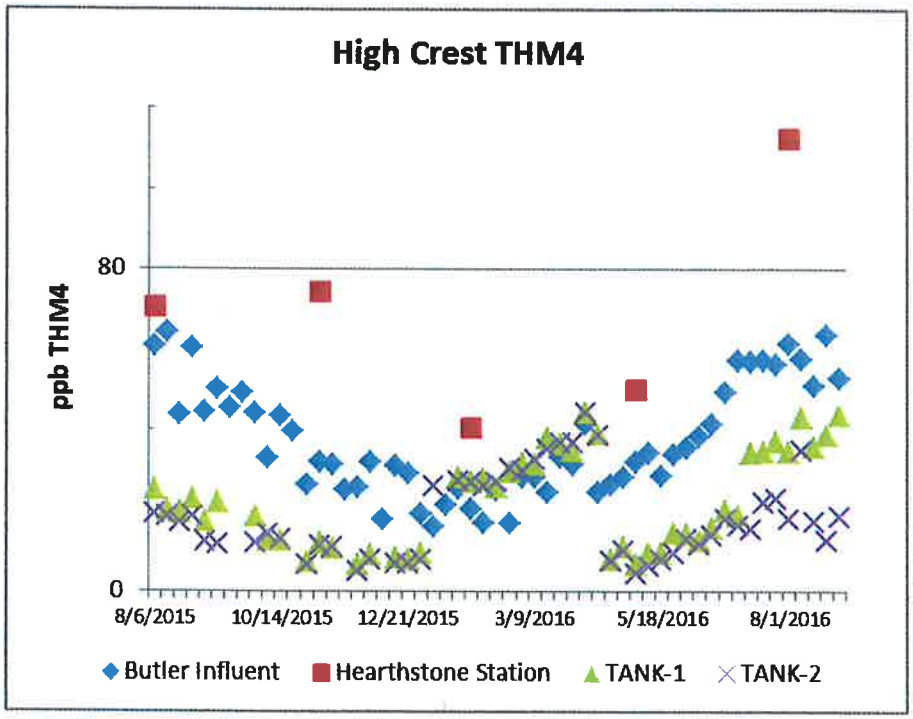
The trend below displays weekly Total Organic Carbon levels in mg/L (left axis) from the Intake through the RW Pumps, the Clarifier effluent, and a representative Filter effluent. Our overall %Removal of TOC from the Intake water to the Filter Effluent is displayed by the solid line vs. the right-hand axis.



9. High Crest THM Removal

Our August compliance sample showed noticeably higher THM levels than the previous four samples going back over the previous 12 months. Contributing somewhat to this increase was an apparent malfunction in our tank recirculating equipment, designed to keep THMs to a minimum. THMs in Tank 1 were at roughly twice the level as in Tank 2 in August.

The compliance sample was not high enough in THMs to cause a compliance concern.



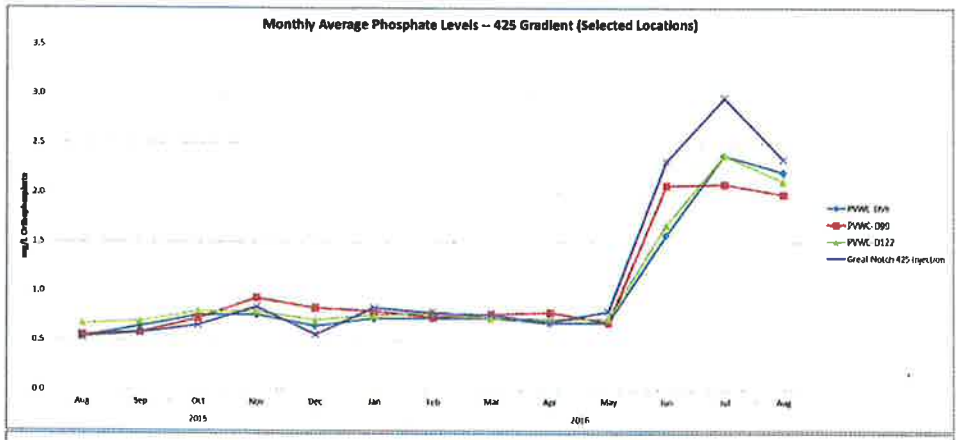
10. Distribution System Corrosion Control Treatment

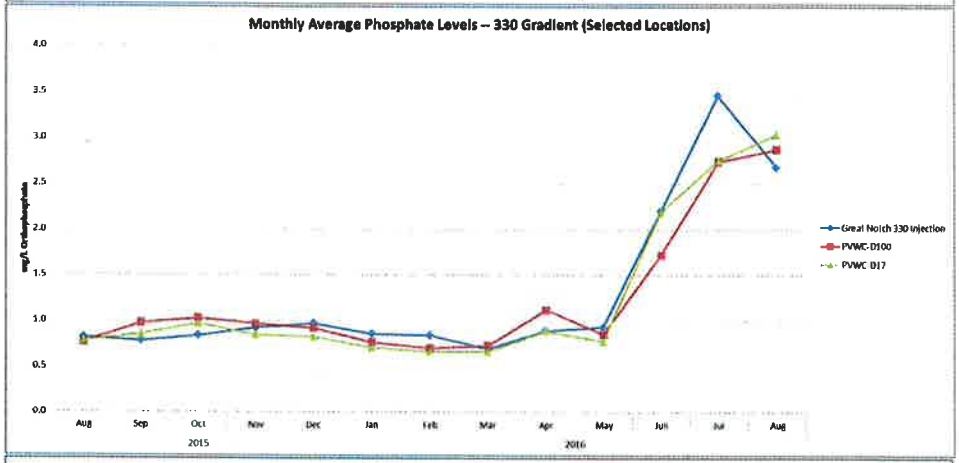
The following charts display mg/L as PO_4 by our non-certified colorimetric method, averaged for each month for each system shown. They represent the effect of corrosion inhibitor injection at the Great Notch facility for the 13 months ending August, 2016. In August there was a slight decrease in the 'average' concentration of phosphate observed, due to a short interruption in the second week of the month. Aside from this interruption the average observed levels in August were approximately equal to July.

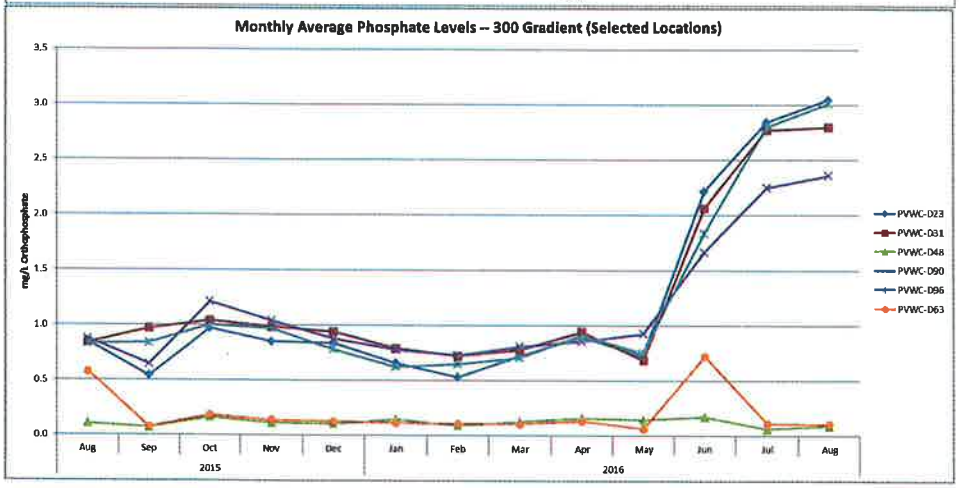
Levels of phosphate in our system have begun to stabilize after the switch to the new phosphate inhibitor earlier this year. The geographical extent of the phosphate treatment remains essentially unchanged. Select locations in the 300 gradient shown below (our D90 location near the Botany pump station, our D31 location on Hope Ave. in Passaic, our D96 location on Crooks Ave. near Getty Ave., and our D48 location on Getty Ave. near St. Joseph Hospital) show that the dispersion from the 330 into the 300 gradient is basically the same as it was before the switch.

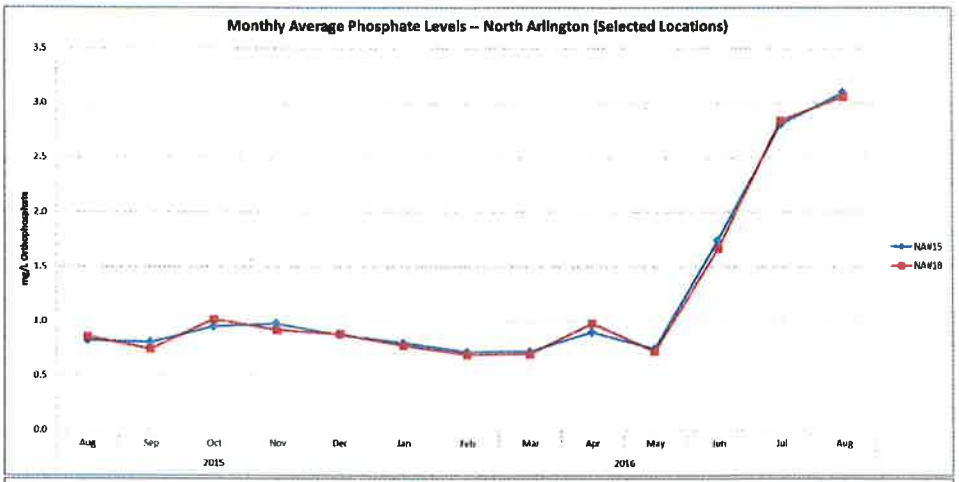
We monitor at our D63 location (Lorenzo's) just outside the New St. Reservoir. No phosphate should be observed at this location. However, in the last weekly June sampling, a significant level of phosphate was seen in this sample, both by our informal colorimetric procedure and also by our certified instrumental method. The nearby Woodland Park interconnection may have opened around this time. It is critical that this effect be minimized in order to keep phosphate from working its way back into the open reservoir where it may foster algal blooms. We did not see significant impact from this in July or August.

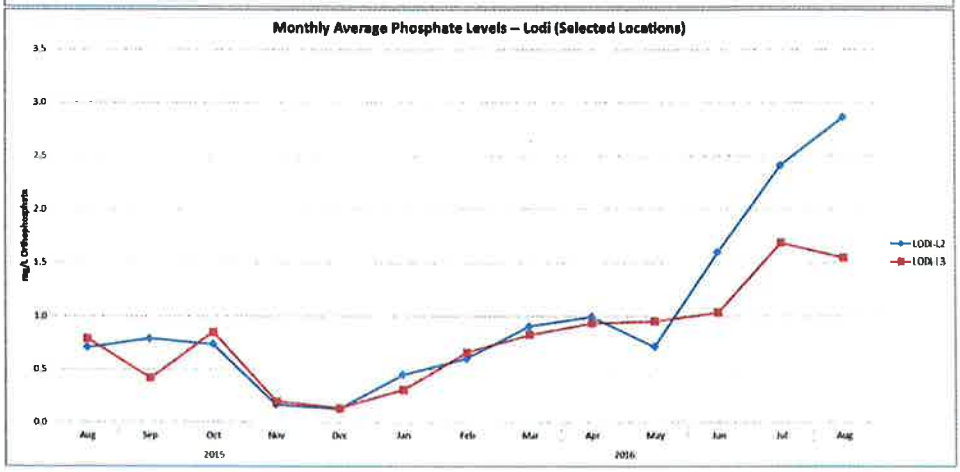
The field phosphate readings in North Arlington and Lodi are also shown below for comparison. These levels have also increased with the switch to the new inhibitor chemical. We see that the Essex St. area of Lodi (at Lodi-L3) is not currently receiving as much inhibitor as the Harrison St. area (Lodi-L2).











11. **Coliform Profiling**

Our continuing profiles of coliform bacteria including E. coli reveal how bacteria present in raw water are removed through the plant treatment process to the extent that finished water is virtually coliform-free on a consistent basis. After this disinfected water is stored in open reservoirs, it regains its bacterial contamination such that it becomes, from a coliform contamination standpoint, nearly indistinguishable from the raw water before treatment.

The following charts depict these monthly studies for the six-month period ending August, 2016, for Total Coliform and E. coli enumerations.

EXECUTIVE DIRECTOR'S REPORT

PASSAIC VALLEY WATER COMMISSION

INDEMNIFICATION AND HOLD HARMLESS AGREEMENT

This Indemnification and Hold Harmless Agreement (the "AGREEMENT") between PASSAIC VALLEY WATER COMMISSION, "Indemnitee" (hereinafter "PVWC") having offices at 1525 Main Avenue, Clifton, New Jersey 07011, (the "Premises") and NORTH JERSEY ELKS DEVELOPMENTAL DISABILITIES AGENCY (NJEDDA), having offices at 1481 Main Ave, Clifton, New Jersey 07011, hereinafter the "Indemnifier" ("North Jersey Elks Developmental Disabilities Agency").

WHEREAS, the Indemnifier including any agencies, agents, departments, entities and/or individuals acting at its direction, on its behalf and for its benefit, desire to conduct certain emergency safety exercises and related activities on September 29, 2016 during the hours of 1:30 p.m. to 2:15 p.m.; and

WHEREAS, the Indemnifier is desirous of utilizing certain facilities owned and operated by PVWC and located at 1525 Main Ave., Clifton, N.J. 07011 in connection with said activities; and

WHEREAS, PVWC is amenable to permitting, the Indemnifier to use its facility located at 1525 Main Ave., Clifton, N.J. 07011 for said purposes on such dates and under such circumstances and conditions as are set forth herein:

NOW, THEREFORE, in consideration of the recitals, the mutual promises and covenants herein and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto agree as follows:

The Indemnifier, on behalf of its officers, agents, employees and affiliated agencies, hereby acknowledges, recognizes and agrees that PVWC shall not be responsible for the loss or damage to property or injury to or death of persons occurring in connection with or arising out of the proposed activities to be conducted in or about or in connection with the premises or otherwise, by reason of any existing or future condition, defect, matter, person or thing in said premises or for the acts, omission or negligence of any persons or entities including any

equipment, fixture apparatus or facilities in connection with or related to said activities. The Indemnifier, agrees to hold PVWC harmless, indemnify and save PVWC from any and all claims and liability for losses of or damage to property or injuries to or death of any persons or entities in connection with its use of the Premises or in connection with , or arising out of said activities, including, but not limited to the obligation to defend PVWC in which case PVWC reserves the right to select its own Counsel for which expenses and fees "North Jersey Developmental Disabilities Agency" should be liable along with any other costs, fees, or expenses or consequential damages which arise out of the activities and circumstances contemplated or arising out of or caused by this Agreement. All insurance policies or self-insured retentions required hereunder shall include PVWC as an additional insured as respects the acts of the Indemnifier, such coverage shall be primary and written evidence of same shall be provided to PVWC prior to commencement of any activities at or about PVWC facility located at 1525 Main Ave., Clifton, N.J. 07011 as contemplated hereunder.

Director

PASSAIC VALLEY WATER COMMISSION

INDEMNIFICATION AND HOLD HARMLESS AGREEMENT

This Indemnification and Hold Harmless Agreement (the "AGREEMENT") between PASSAIC VALLEY WATER COMMISSION, "Indemnitee" (hereinafter "PVWC") having offices at 1525 Main Avenue, Clifton, New Jersey 07011, (the "Premises") and COUNTY OF PASSAIC POLICE ACADEMY having offices at 214 Oldham Road, Wayne, New Jersey 07470, hereinafter the "Indemnitor" ("County of Passaic Police Academy").

WHEREAS, the Indemnitor including any certain agencies, agents, departments, entities and/or individuals acting at its direction, on its behalf and for its benefit (on whose behalf Indemnitor acts, including the County of Passaic) desire, to conduct Vehicle Operations Training Course, on the following Saturdays: October 8, October 15, October 22, October 29 and November 5, 2016 during the hours of 7:30 a.m.to 3:30 p.m.; and

WHEREAS, the Indemnitor is desirous of utilizing certain facilities owned and operated by PVWC (Point View Reservoir) and located on Berdan Ave., Wayne, N.J. 07470 in connection with said activities; and

WHEREAS, PVWC is amenable to permitting, the Indemnitor to use its facility located on Berdan Ave, Wayne, N.J. 07470 for said purposes on such dates and under such circumstances and conditions as are set forth herein:

NOW, THEREFORE, in consideration of the recitals, the mutual promises and covenants herein and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto agree as follows:

The Indemnitor, on behalf of its officers, agents, employees and affiliated agencies, hereby acknowledges, recognizes and agrees that PVWC shall not be responsible for the loss or damage to property or injury to or death of persons occurring in connection with or arising out of the proposed activities to be conducted in or about or in connection with the premises or otherwise, by reason of any existing or future condition, defect, matter or thing in said premises or for the acts, omission or negligence of any persons or entities including any equipment, fixture apparatus or facilities in connection with or related to said activities.

PASSAIC VALLEY WATER COMMISSION

The Indemnitor, agrees to hold PVWC harmless, indemnify and save PVWC from any and all claims and liability for losses of or damage to property or injuries to or death of any persons or entities in connection with its use of the Premises or in connection with, or arising out of said activities, including, but not limited to the obligation to defend PVWC in which case PVWC reserves the right to select its own Counsel for which expenses and fees "Passaic County Police Academy" shall

be liable along with any other costs, fees, or expenses or consequential damages which arise out of the activities and circumstances contemplated or arising out of or caused by this Agreement. All insurance policies or self-insured retentions required hereunder shall include PVWC as an additional insured with no less than One million dollars of coverage, as respects the acts of the Indemnitor, such coverage shall be primary and written evidence of same shall be provided to PVWC prior to commencement of any activities by providing an insurance endorsement at or about PVWC facility located at 1525 Main Ave., Clifton, N.J. 07011 as contemplated hereunder.

Clifton, NJ 07011

Dear Mr. Amodio:

With our Special II Police Officers & Deputy Sheriff's Class, CL#16-08SP-II, having approximately thirty-one (31) trainees enrolled, we are looking for some assistance with our Vehicle Operations Training Course. I would like to take this opportunity to request the use of Point View Reservoir located at Berdan Avenue in Wayne.

We will be utilizing the reservoir property on the following **Saturdays**:

October 8, 2016, October 15, 2016, October 22, 2016, October 29, 2016 and November 5, 2016.

We will arrive at approximately 7:30 am departing at 3:30 pm. In addition to the trainees, there will be four (4) Instructors present utilizing approximately twelve (12) police vehicles.

The contact person for the course is D/Sgt. Neil Hoogmoed, Senior Vehicle Operator Instructor, Passaic County Police Academy and he can be reached at (973) 595-6411.

If you should have any questions or require additional information, please do not hesitate to contact me at the Academy.

Your assistance will be greatly appreciated. I will be awaiting your reply.

Sincerely,

Robert A. Lyons
Director

PASSAIC VALLEY WATER COMMISSION

CERTIFICATION

I, LOUIS AMODIO, Administrative Secretary of the Passaic Valley Water Commission in the County of Passaic, and the State of New Jersey do hereby certify that the foregoing Resolution is a true copy of a legal quorum of the Original Resolution duly passed and adopted by a majority of the full membership of the Passaic Valley Water Commission at its meeting of September 14, 2016.

LOUIS AMODIO
Administrative Secretary

OPEN SESSION RESUMED

CONSENT ACTION

RESOLUTION(S)

PASSAIC VALLEY WATER COMMISSION

RESOLUTION APPROING AND AUTHORIZING THE EXECUTION OF AN EASEMENT AGREEMENT WITH NEW JERSEY SCHOOLS DEVELOPMENT AUTHORITY DRAINAGE IMPROVEMENT, CITY OF PATERSON, PASSAIC COUNTY, NEW JERSEY

Water Service Access Easement for Public School No. 16, Block 7401 Lots 1, 2, 5, and 9 Block 7401 Lots 14 and 15 (East 21st Street and East 20th Street) City of Paterson, New Jersey

DATE OF ADOPTION: _____

Approved as to form and legality by the Law Department on the basis of facts set forth by the Executive Director and Director of Engineering, and Purchasing and Finance Departments as applicable.

Introduced by Commissioner: _____

Seconded by Commissioner: _____

WHEREAS, the Passaic Valley Water Commission ("the Commission") as statutorily chartered public water utility serving the City of Paterson ("Paterson") has undertaken to provide portable water services to the school facility constructed by the New Jersey Schools Development Authority ("SDA"), designated as Public School No. 16 , designated Block 7401, Lots, 1, 2, 5, and 6 and Block 7401 Lots 14, 15 and 16, fronting on East 21st Street and East 20th Street with the City of Paterson ("the School Facility");

WHEREAS, in order to provide for the installation of Commission water lines to the School Facility both the Commission and the SDA have agreed on a form of easement, granting the Commission permanent easement rights of access to the School Facility for purpose of installing, operating and maintaining water utility lines and facilities, and for whatever other water utility service purposes for which rights of easement may be necessary and convenient for the Commission's public water utility purposes, including for the provision of continuous service to the School Facility, the Commission and the SDA, together with their respective attorneys have agreed to terms of easement as further set forth in the schedule annexed hereto as Schedule A ("Easement");

WHEREAS, it having been reported to the Commission that the Easement has been reviewed by the Commission Department of Engineering and by Special Counsel for the Commission, and found sufficient, both to secure and record the Commission's rights of utility services related access to the School Facility, and to convey rights of easement access to the

Commission from the SDA as state agency authorized to grant such rights, including the rights of easement conveyed in the attached form of easement entered by SDA as grantor and accepted by the Commission as grantee thereunder;

WHEREAS, in consultation with the SDA and its engineering professionals , named as grantor in the annexed Easement, the Commission's Engineer department has determined that the survey drawing annexed to the attached Easement sufficiently conforms with the descriptions incorporated into the Easement, and also reliably depicts the actual, "as built", installed, location of the Commission's pipelines, mains, meters and facilities installed with the Easement route for purpose of serving the School Facility;

WHEREAS, upon execution of the annexed form of Easement by the SDA as authorized grantor thereunder, conveying rights of use and access within the Easement to the Commission, the Commission will cause the Easement to be executed on behalf of the Commission and to be duly filedand recorded with Registrar of the County of Passaic, thereby serving as record notice of the Commission's perpetual easement rights of access and use of the School Facility areas, as shown in the description and as built survey drawing annexed to the Easement and incorporated therein by reference;

NOW THEREFORE, be it resolved by the Board of Commissions of the Passaic Valley Water Commission:

1. The Commission agrees to the terms of the form of easement between the SDA and the Commission annexed hereto as Schedule A; and
2. The appropriate officers and employees of the Commission are hereby authorized and directed to execute and record the Easement agreement attached hereto, in accordance with the instant Resolution and supporting submissions provided to the Board of Commissioners in connection therewith, all as set forth herein above.

Re: Deed of Easement for Installation, Operation, and Maintenance of Public Utility Water lines, valves, meters. and facilities serving NJ Schools Development Authority Project – Proposed Resolution Authorizing Acceptance , Execution and Recording of Access Easement

---

Attached is a proposed form of Resolution, authorizing execution on behalf of PVWC , and recording, of a form of Deed of Easement (also attached), being issued by the New Jersey Schools Development Authority ("SDA") to the Passaic Valley Water Commission , in connection with SDA Project , Paterson , P.S. No. 16 , East 20th and East 21st Streets , Paterson , N.J. The Easement grants the Commission permanent rights of access for the installation , operation and maintenance of water lines and facilities servicing the school in accordance with the Commission's public water utility mission.

Construction and installation of the Commission's water lines servicing the P.S. No. 16 has actually proceeded to completion pursuant to agreement with the SDA, under the terms set forth in the attached easement . However, final execution of a memorializing easement had been deferred , pending reconciliation of field condition variances between the actual , " as – built " location of the Commission's waterlines and the locations anticipated on pre – construction drawings and plans .

Following field inspection of installed facilities and review of the revised description and survey drawing annexed to the form of Easement that accompanies the proposed Resolution , PVWC Engineering is now reasonably satisfied that the revised description and survey drawing annexed to the Easement conform to the installed pipeline's actual location on site.

Accordingly , the proposed Resolution completes the process by authorizing PVWC's acceptance of the Easement executed by SDA , and its execution on behalf of PVWC as grantee , and its recording with the County Registrar as permanent record of PVWC rights of access.

Prepared by:

Sandra L. Vieser, Esq.

Deed of Easement

THIS DEED OF EASEMENT is given this ___ day of _____, 2016, between, **NEW JERSEY SCHOOLS DEVELOPMENT AUTHORITY**, having an office at 32 East Front Street, PO Box 991, Trenton, New Jersey 08625, referred to herein as "Grantor" and the **PASSAIC VALLEY WATER COMMISSION**, having its office at 1525 Main Avenue, Clifton, NJ 07011, referred to herein as the GRANTEE.

WHEREAS, the Grantor is the owner of that certain property known as a portion of Block 7401, Lots 1, 2, 5 and 6 and Block 7402, Lots 14, 15 and 16; and Block 8918, Lots 20 and 21 (collectively called the "Property"), all lying and being located in the City of Paterson, County of Passaic and State of New Jersey; and

WHEREAS, Grantee is a statutorily chartered public water utility engaged in furnishing water utility service to subscribers in the State of New Jersey; and

WHEREAS, Grantor does agree to convey an easement to Grantee for the purposes described below, in connection with providing water service to the Property and for the conduct by Grantee of its business, all in accordance with and for the purposes set forth in this Deed of Easement, for the mutual benefit of both Grantor and Grantee.

WITNESSETH:

NOW THEREFOR, In consideration of these premises and the sum of One ($1.00) Dollar good and valuable consideration paid to the Grantor by the Grantee, the receipt of which is hereby acknowledged, and in further consideration of the mutual conditions, covenants, promises and terms hereinafter contained, it is agreed that:

1. Grantor does hereby grant and convey to Grantee an approximately fifteen (15) foot wide non-exclusive water utility line easement in, under, through, upon, over and across the portion of the Property as more particularly described in the metes and bounds description attached hereto as Exhibit A (the "Easement Area") with full rights, privileges and authority for Grantee to enter upon same from time to time, for the purpose of installing, constructing, inspecting, altering, extending, repairing, replacing, rebuilding, operating, and maintaining mains, pipes, and other fixtures, appurtenances and facilities (hereinafter the "Facilities") which Grantee may deem necessary or proper for the transmission and distribution of water.

2. Grantor further grants to Grantee the right of ingress and egress onto the said Easement Area by such route over the Property as shall occasion the least practicable damage and inconvenience to Grantor.

3. Grantee, by acceptance of these easement covenants, agrees that:

(a) Grantee shall install and maintain the Facilities and keep them functioning properly. Grantee shall perform all work required in connection with the maintenance and safe and proper use and operation of the Facilities installed by Grantee within the Easement Area including, without limitation, all required inspections, alterations, construction, repairs, replacements, operation, and other necessary maintenance work at or with respect to the Facilities. Such work shall be performed in a good and workmanlike manner and with a minimum of inconvenience to the Grantor, and any damage done to the Property and/or the Easement Area, shall be promptly repaired and restored to substantially its condition immediately prior to damage, at the sole cost and expense of Grantee, including without limitation damage to sidewalks, driveways and landscaping (inclusive of grading and seeding) located thereon. Immediately following any permitted maintenance activities initiated by the Grantee, the Grantee will cause to be removed from the Property, including the Easement Area, all easement maintenance related debris, surplus material and construction equipment and will

leave the Property in a neat and presentable condition to include prompt restoration to smooth surface contours of any easement related trench settlement. Any agreement entered into between Grantee and any contractor selected to perform any work in connection with the maintenance of the Easement Area, shall provide that the contractor shall indemnify Grantor against any actions which may in any manner arise out of, be occasioned by, or result from performance of such work by the contractor, its agents, servants, employees or invitees, express or implied

(b) Grantee shall defend and indemnify Grantor against, and shall save Grantor harmless from, and shall reimburse Grantor with respect to, any and all claims, demands, actions, causes of action, injuries, orders, losses, liabilities (statutory or otherwise), obligations, damages, fines, penalties, costs and expenses (including without limitation, reasonable attorneys' fees and expenses) incurred by, imposed upon or asserted against Grantor by reason of any accident, injury (including death at any time resulting therefrom) or damage to any person or property arising out of or resulting from any acts or omissions of Grantee, or by any employee, licensee, invitee or agent of Grantee in the course of their employment by Grantee, on the Property.

(c) Grantee shall not construct any additional improvements on top of the ground of the Easement Area.

4. Grantor does further grant and convey to Grantee the right, privilege and authority to trim, cut and remove such tree branches, roots, shrubs, plants, trees and vegetation which might, within the exclusive discretion and sole judgment of Grantee, interfere with or threaten the safe, proper or convenient use, maintenance or operation of said Facilities within the Easement Area.

5. Grantor reserves the right to use the Property, including the Easement Area, for purposes which will not interfere with the safe, proper or convenient use of the Easement Area by Grantee for the purposes herein stated. Grantor shall maintain the above ground Easement Area on a regular basis in accordance with its standard maintenance practices and shall not construct any new improvements either on or above the Easement Area without Grantee's consent..

6. Subject to the consent of Grantee, which shall not be unreasonably withheld or delayed, Grantor shall have the right to allow other utilities to use the Easement Area for any purpose which does not in any way interfere with the accessibility to and safe operation of the Facilities of Grantee. Grantor's right to allow other utilities to use the Easement Area does not include the right to allow other utilities to use the Facilities that Grantee has installed in the Easement Area Or to construct any new improvements either on or above the Easement Area which would in any way inhibit Grantee's use of the Easement Area for the purposes set forth herein.

7. In all references herein to any parties, persons, entities or corporations, the use of any particular gender or the plural or singular number is intended to include the appropriate gender or number as the text written instrument may require.

8. Whenever in this instrument any parties shall be designated or referred to by name or general reference, such designation is intended to and shall have the same effect as if the words "heirs, executors, administrators, personal or legal representatives' successors and assigns" had been inserted after each and every such designation.

9. The Easement granted herein will revert to the Grantor in the event that the Grantee ceases to use the Easement Area for the sole purpose granted herein.

10. This Deed of Easement shall be governed by and construed in accordance with the laws of the State of New Jersey and recorded on the title to the Property.

11. Each of the Parties shall have the right to record this Deed of Easement.

In Witness Whereof, the Grantor and the Grantee have hereunder set their hand and seal this day and year first above written.

RESOLUTION OF PASSAIC VALLEY WATER COMMISSION
DATE OF ADOPTION:

Approved as to form and legality by Law Department on the basis of facts set forth by Executive Director, Purchasing, and Finance Departments.

Introduced by Commissioner: _____

Seconded by Commissioner: _____

WHEREAS, Passaic Valley Water Commission ("PVWC") previously procured proprietary software and awarded a maintenance contract to Sungard Public Sector to maintain the said proprietary software system currently in use at PVWC, and the said six-month maintenance contract is due for renewal on October 1, 2016; and

WHEREAS, a copy of the Director of Purchasing's memorandum dated September 7, 2016 recommending renewal of the maintenance contract with Sungard Public Sector (hereinafter the "Contract") in accordance with N.J.S.A. 40A:11-5 (dd) relating to proprietary software and/or hardware, is attached hereto and made a part hereof as Exhibit A; and

WHEREAS, a copy of the Contract, which commences October 1, 2016 and ends on or about March 31, 2017 in the total amount of $57,883.36 (and including a breakdown of applications and related fees), is attached hereto and made a part hereof as Exhibit B; and

WHEREAS, the Executive Director and the Director of Engineering have reviewed the above-referenced correspondence and Contract and concur with the Director of Purchasing's recommendations, (and the General Counsel has reviewed the proposed Contract as to form and legality); and

WHEREAS, PVWC's Comptroller has certified, with respect hereto, that funds are currently available for said purpose and said certificate is attached hereto and made a part hereof as Exhibit C; and

WHEREAS, it is in the best interest of PVWC, its users and constituent municipalities to engage, or continue to engage, the services of Sungard Public Sector (the "Awardee") with regard to the Contract at this time;

NOW, THEREFORE, BE IT RESOLVED, by Passaic Valley Water Commission, in the County of Passaic, New Jersey:

1. That PVWC hereby awards a six-month Contract commencing as of October 1, 2016 for the renewal of the maintenance of PVWC's proprietary software system to the Awardee in connection with the above-described goods and services in the total amount of $57,883.36; and

2. That an appropriate official of PVWC, on behalf of PVWC, is hereby authorized and directed to execute the Contract hereby awarded to the Awardee and the Secretary of PVWC to attest to the Contract and such other officers, employees and officials of PVWC are hereby authorized to perform such acts and execute such documents as are necessary to implement the terms and intentions of this Resolution, and

3. That this matter shall be advertised as required by New Jersey law, in accordance with an appropriate form of notice, and a copy of this Resolution and Agreement shall be placed on file and made available for public inspection at the office of the Administrative Secretary of Passaic Valley Water Commission.

RESOLUTION OF PASSAIC VALLEY WATER COMMISSION
STATE CONTRACT #M0483-16-r-24098 89967
PROCUREMENT OF COMPUTER EQUIPMENT

DATE OF ADOPTION:

Approved as to form and legality by Law Department on basis of facts set forth by Executive Director, Purchasing, Engineering and Finance Departments.

Introduced by Commissioner: _____

Seconded by Commissioner: _____

WHEREAS, PVWC requires the procurement of two (2) new computers for PVWC's Maintenance Department to replace obsolete desktop computers; and

WHEREAS, in accordance with N.J.S.A. 40A:11-12, PVWC may purchase goods or services under contracts entered into on behalf of the State by the Division of Purchase and Property in the Department of the Treasury; and

WHEREAS, PVWC has elected to procure the said computer equipment in the total amount of $2,415.08 from Dell Marketing, L.P. of Round Rock, Texas (the "Awardee") under State Contract #M0483-08-r-39975 70256 (herein the "State Contract"), and a copy of a memorandum dated September 2, 2016 from PVWC's Director of Purchasing, along with other relevant correspondence, is attached hereto and made a part hereof as Exhibit A; and

WHEREAS, N.J.S.A. 40A:11-12 of the Local Public Contracts Law provides for the awarding of said contract to the Awardee; and

WHEREAS, the Executive Director and the Director of Engineering have reviewed the above-referenced memorandum and concur with the Director of Purchasing's recommendations, (and the General Counsel has reviewed the proposed purchase as to form and legality); and

WHEREAS, PVWC's Comptroller has certified, with respect hereto, that funds are currently available for said purpose and said certificate is attached hereto and made a part hereof in above-referenced Exhibit A;

NOW, THEREFORE, BE IT RESOLVED, by Passaic Valley Water Commission, in the County of Passaic, New Jersey;

1. That the purchase of the above-referenced computer equipment under the State Contract is hereby awarded to the Awardee in the total amount of $2,415.08; and

2. That the appropriate officers and employees of PVWC are hereby authorized and directed to perform such acts and execute such documents as are consistent herewith, with respect to said procurement under the State Contract as set forth hereinabove.

Important Notes

Terms of Sale

This quote is valid for 30 days unless otherwise stated. Unless you have a separate written agreement with Dell that specifically applies to this order, your order will be subject to and governed by the following agreements, each of which are incorporated herein by reference and available in hardcopy from Dell at your request:

If this purchase is for your internal use only: Dell's Commercial Terms of Sale (http://www.dell.com/CTS), which incorporate Dell's U.S. Return Policy (www.dell.com/returnpolicy) and Warranty (www.dell.com/warrantyterms).

If this purchase is intended for resale: Dell's Reseller Terms of Sale (www.dell.com/resellerterms).

If this purchase includes services: in addition to the foregoing applicable terms, Dell's service contracts and related service terms (www.dell.com/servicecontracts/global).

If this purchase includes software: in addition to the foregoing applicable terms, your use of the software is subject to the license terms accompanying the software, and in the absence of such terms, then use of the Dell-branded application software is subject to the Dell End User License Agreement - A Version (www.dell.com/AEULA) and use of the Dell-branded system software is subject to the Dell End User License Agreement - S Version (www.dell.com/SEULA).

You acknowledge having read and agree to be bound by the foregoing applicable terms in their entirety. Any terms and conditions set forth in your purchase order or any other correspondence that are in addition to, inconsistent or in conflict with, the foregoing applicable online terms will be of no force or effect unless specifically agreed to in a writing signed by Dell that expressly references such terms.

Pricing, Taxes, and Additional Information

All product, pricing, and other information is valid for U.S. customers and U.S. addresses only, and is based on the latest information available and may be subject to change. Dell reserves the right to cancel quotes and orders arising from pricing or other errors. Please indicate any tax-exempt status on your PO, and fax your exemption certificate, including your Customer Number, to the Dell Tax Department at 800-433-9023. Please ensure that your tax-exemption certificate reflects the correct Dell entity name: **Dell Marketing L.P.** Note: All tax quoted above is an estimate; final taxes will be listed on the invoice. If you have any questions regarding tax please send an e-mail to Tax_Department@dell.com.

For certain products shipped to end-users in California, a State Environmental Fee will be applied to your invoice. Dell encourages customers to dispose of electronic equipment properly.

RESOLUTION OF PASSAIC VALLEY WATER COMMISSION
DATE OF ADOPTION:

Approved as to form and legality by Law Department on basis of facts set forth by Executive Director, Purchasing, Engineering and Finance Departments.

Introduced by Commissioner: _____

Seconded by Commissioner: _____

WHEREAS, on August 9, 2016 four (4) bids were received by Passaic Valley Water Commission ("PVWC") for Contract No. 16-B-7 "Furnish and Deliver Valves, Tapping Gate Valves and Tapping Sleeves"; and

WHEREAS, said bids have been reviewed by the Executive Director, Director of Engineering, and the Director of Purchasing, (and Counsel as to form and legality); and

WHEREAS, the Local Public Contracts Law provides for the awarding of the Contract upon receipt of bids and qualifications of bidders therefor; and

WHEREAS, the lowest responsible, responsive bid submitted for this Contract was that of Water Works Supply Company, Inc. of Pompton Plains, New Jersey (the "Awardee") with respect to said bid in the amount of $459,216.14; and

WHEREAS, PVWC's Comptroller has certified, with respect hereto, that funds are currently available for said purpose and said certificate is attached hereto;

NOW, THEREFORE, BE IT RESOLVED, by Passaic Valley Water Commission, in the County of Passaic, New Jersey:

1. That Contract No. 16-B-7 "Furnish and Deliver Valves, Tapping Gate Valves and Tapping Sleeves" in the total amount of $459,216.14 in connection with the above described goods and services is hereby awarded to the Awardee.

2. That the appropriate officers of the Commission are hereby authorized to execute the Contract; and implement the terms of

said Contract in accordance with this Resolution and the submissions provided in connection therewith, with respect to solicitation for bids made in connection with Contract 16-B-7 as set forth hereinabove.

RESOLUTION OF PASSAIC VALLEY WATER COMMISSION
DATE OF ADOPTION:

Approved as to form and legality by Law Department on basis of facts set forth by Executive Director, Purchasing, Engineering and Finance Departments.

Introduced by Commissioner: _____

Seconded by Commissioner: _____

WHEREAS, on August 30, 2016 four (4) bids were received by Passaic Valley Water Commission ("PVWC") for Contract No. 16-B-29 "Furnish and Deliver Quick-Disconnect Type Adapters for Fire Hydrants"; and

WHEREAS, said bids have been reviewed by the Executive Director, Director of Engineering, and the Director of Purchasing, (and Counsel as to form and legality); and

WHEREAS, the Local Public Contracts Law provides for the awarding of the Contract upon receipt of bids and qualifications of bidders therefor; and

WHEREAS, the lowest responsible, responsive bid submitted for this Contract was that of Water Works Supply Company, Inc. of Pompton Plains, New Jersey (the "Awardee") with respect to said bid in the amount of $529,874.74; and

WHEREAS, PVWC's Comptroller has certified, with respect hereto, that funds are currently available for said purpose and said certificate is attached hereto;

NOW, THEREFORE, BE IT RESOLVED, by Passaic Valley Water Commission, in the County of Passaic, New Jersey:

1. That Contract No. 16-B-29 "Furnish and Deliver Quick-Disconnect Type Adapters for Fire Hydrants" in the total amount of $529,874.74 in connection with the above described goods and services is hereby awarded to the Awardee.

2. That the appropriate officers of the Commission are hereby authorized to execute the Contract; and implement the terms of

said Contract in accordance with this Resolution and the submissions provided in connection therewith, with respect to solicitation for bids made in connection with Contract 16-B-29 as set forth hereinabove.
